General Manager Speaks at RuralTeleCon 2005

WOODLAWN, Ill. – October 13, 2005 – Jeff Mabry, General Manager of SlingShot Wireless Communications, LLC recently presented at the 9th Annual Conference of the Rural Telecommunications Congress in Lexington, Ky.

In his presentation, Mabry discussed the importance of RF engineering and how extremely effective it is at any stage of wireless network development.

“Throughout North America wireless broadband Internet networks are being developed and expanded on a daily basis, said Mabry.” “In order to maximize technical effectiveness of these networks, RF engineering must be considered.”

The Rural Telecommunications Congress is a national stakeholder organization dedicated to assuring rural communities and rural residents in the United States have access to the information and support they need to obtain and use advanced telecommunications services, particularly broadband digital communications, for community and economic development. This conference focused on critical issues facing rural communities and rural residents as they use telecommunications for community and economic development.
